# The Great Idol of our Age

# OUR GREAT IDOL

Digital technology is the great idol of our age:

1. New media is alluring and an object of worship.
2. It enables other idols to increase their grip on our lives.

A hand-drawn heart shape filled with red brushstrokes, outlined in black. The heart is centered on a white background with dark vertical bars on the left and right sides.

*"Whatever is the functional master  
of your heart?"*

*Tim Keller*

“High school seniors spent an average of 2¼ hours a day texting on their cell phones, about 2 hours a day on the Internet, 1½ hours a day on electronic gaming, and about a half hour on video chat in 2016. That totals to six hours a day with new media – and that’s just during their leisure time... Considering that teens spend about seventeen hours a day in school, sleeping, and on homework and school activities, nearly all of their leisure hours are now spent with new media.”

Jean M. Twenge

Is my phone the last thing that I put down at night and the first thing that I pick up in the morning?

Do I neglect relationships, exercise, silence, reading or prayer, because of my phone habits?

Is my phone making me vulnerable to another idols – work, lust, approval, escapism, distraction etc.?

Is my phone ruling my time, and therefore becoming the functional master of my heart?

**Are my digital habits worth imitating?**
